Summary

I am Lablaida ikram, a second-year Big Data & Cloud Computing engineering student.

I am a dedicated and results-oriented Data Scientist with a profound passion for extracting meaningful narratives from complex datasets. My skills encompass machine learning, statistical modeling, and data analysis, enabling me to transform intricate data into actionable insights that inform strategic decision-making.

Education

Higher Normal School of Technical Education of Mohammdia | MOHAMMEDIA
State Engineering.Degree ,Big Data and Cloud Computing | 06/2025

Higher School Of Technology Laayoune | LAAYOUNE
06/2022

IBN SINA SCHOOL | KELAA DES SRAGHNA
06/2020

Internships

- **Agence Banque populaire** Casablanca : Developed a plateforme for banking Account management using Java framework spring boot ,Angular js , Sql Server.
- **ICHRAK BUSINESS Negoce** Marrakech : developed a web-based personnel management application, designed to simplify and optimize human resources management within a company.
- **Marjane** Kelaa Sraghna : Observed and discovered different information systems used by Marjane company.

PROJECTS

Air Quality Prediction: Developed and implemented regression models and time series analysis techniques to forecast air quality indices in urban areas.

- Tech Stack: Machine learning Algorithms , python

MyBlog: Is a school project to develop a Blog whose Backend and Frontend parts will be developed and tested separately. The backend work as a JSON API.

- Tech stack: HTML,CSS,Javascript,Bootstrap,Node.js ,Express,Postman,Prisma ORM,MySQL.

PatientSystemRecord: Design and development of an application for managing patients' medical records.

- Tech stack: JAVA, MySql Server

CryptoNews Engine : A web application that provides users with up-to-date information about the cryptocurrency market, including real-time data and the latest news.

- Tech stack: React js,JSX,Node js ,API,Ant design

Certificates

- **IT Essentials Certification** Cisco Academy
- **NDG Linux Unhatched** Cisco Academy
- **Introduction to Mongo** MongoDB
- **Oracle Cloud Infrastructure Foundations** Oracle

Skills

Bootstrap - Node js - Sql Server- - React js- Express js -Prisma - Javascript- Docker - Hadoup - kafka - Spark- Python- Machine Learning Algorithms-Rasa-Springboot-Angular

Extra-Curricular ACTIVITIES

Organizational Cell Coordinator at LDX Club, Mentor at DigiGirlz Morocco, Volleyball Player
